**NOTES:**

1. These connection details apply to concrete abutments and walls. For additional connection details, see Project Plans.

2. For additional details of Transition Railing (Type STB), see Standard Plan A756.

3. Transition Railing (Type STB) transitions the standard 1.5-gage single three beam barrier to a heavier gage single three beam railing section then to a heavier gage required double three beam barrier section which then is connected to the concrete anchor block.

4. For details of End Cap (Type TC), see Standard Plan A756.

5. Direction of adjacent traffic indicated by.
